DESIGN → BUILD → INTEGRATE

Pressureless Combiner Conveyor

Mass flow combining to line up bottles or cans into single file with no back pressure on the product where delicate handling is required

Product Description

- Detects and removes downed bottles
- Eliminates bridging and gap formation
- Modular construction allows for fast and efficient change overs to alternate products
- Controls modulate the product through the system as line flow changes
- Ensures gentle transfer of bottles without pressure which prevents scratching, denting, breakage, and label scuffing
